

VITAGRAF®

renforcé

Very high resistance vine staple.

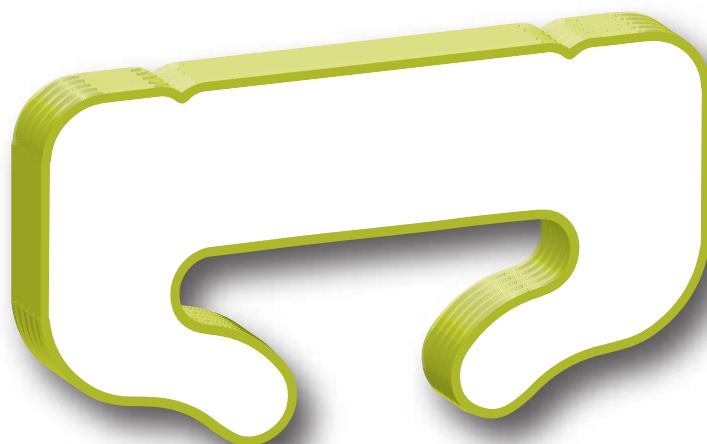

Vitagraf® renforcé is recommended in high vineyards,
with strong winds and high wire tensions.

Vitagraf® renforcé is the most resistant staple on the market.

Main advantage

Excellent relation
initial / residual resistance
that gives high performance
to this staple's degradation

Packaging

6 bags of 2 500 pieces
by cardboard

or

Bucket of 2 800 pieces
240 buckets by pallet

Staple setup recommendations

One staple between each stock
No staple between the post and the stock

Space between wires : 20 mm

Thickness: 2 mm

Wires entry : 7,9 mm

Ø Maximum wires diameter : 3,6 mm

Real size
staple

Length : 33 mm
Height : 17,4 mm

Initial average resistance : 16,5 Kg

Residual resistance measured
after a season :

- strongest : 4,3 Kg

- weakest : 1,7 Kg

- average : 3 Kg
