

CB double position

Made of alimentary quality materials, the CB clips are photodegradable.
CB double position is recommended in high vineyards with low constraints
or to hold the threads in the first passage of trellising.
Economical, CB double position staples avoid pickup time.
Practical, soft and light, they do not get tangled in the pocket.
Without heavy metal, they do not harm the wines during the pressing cycle.

Advantages

Practical and economic
CAN BE USED IN THE
FIRST PASSAGE OF TRELLISING

Staples setup recommandations

One staple between each stock.
No staple between stock and post.

Packaging

2 500 pieces by pallet
6 bag by cardboard
