

ELIO 3 CLIP

15 MM

100% VEGETAL

Elioclip® 15mm 100% Vegetal is the biodegradable vineyard staple of the Multiclip range.

It is part of a sustainable development approach.

Its complete biodegradation takes place over the year in situ and enters the humification cycle.

Elioclip® 15mm 100% Vegetal is recommended in low vineyard, with low to medium constraints.

Advantages

100% Vegetal
100% Biodegradable
Full Biodegradation
in situ over the year

Real size Staple

Length : 23,11 mm
Height : 14,96 mm

Initial average

resistance : 10 Kg

Residual resistance measured
after one season: 0kg

Staples setup recommandations

One staple between each stock.
No staple between stock and post.

Space between wires : 15 mm

Thickness : 2 mm

Wires entry : 5 mm

Ø Maximum wires diameter : 4 mm

Packaging

Bucket of 5 000 pieces
