

AGRAFLIEN[®]

degradable

Agraflien[®] is a closed clip in which wires can not escape.
Fits particularly well lifting wires with very low tension.
It is very easy to take and to set up. Its degradation is regular.
Agraflien[®] remains on the lifting wires after passing the harvesting machine.

Advantages

Stays in position
on wires

Packaging

Cardboard of 5 000 pieces

Clips setup

We recommend that clips are placed
centrally between vines in the trellis bay,
though not adjacent to the trellis post

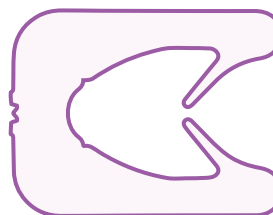

Space between wires : 20 mm

Thickness : 2,5 mm

Wires entry : 5 mm

Ø Maximum wires diameter : --

Real size

Length : 35 mm

Height : 26 mm

Initial average

resistance : 11 Kg

Residual resistance measured after
a season :

- Highest : 2,6 Kg
- Lowest : 0,5 Kg
- Average : 2 Kg
